

CLASS SPECIFICATION

DISTINGUISHING CHARACTERISTICS OF THE CLASS:

The Assistant Fire Chief reports directly to the Chief of the Fire and Rescue Department, and functions as second-in-command as needed. The Assistant Fire Chief class differs from the Deputy Fire Chief class in that the Assistant Fire Chief oversees either the Operations Division or the four administrative staff divisions (Prevention, Support Services, Safety and Personnel Services and Fiscal Services). The Deputy Fire Chief class, in contrast, is reserved for positions managing one of the agency's three staff divisions (Prevention, Support Services or Safety and Personnel Services), one of the three Operations shifts, the Emergency Medical Services component of the Operations Division, Special Operations or the Training Academy.

Regardless of area of assignment, all uniformed fire and rescue personnel that are medically qualified for field duties as a firefighter must maintain a level of fitness sufficient to enable them to participate in fire suppression and rescue activities when the need arises, as demonstrated by successful completion of a work performance test (unless granted light duty due to illness or injury).
